<b>9. Description and Purpose of Grantee Organization</b> (3000 characters maximum)				
Carroll Hospice, Inc. was established in 1986 to provide palliative care , emotional support and pain and symptom management for persons needing end-of-life care and support for their families. Our services include nursing, social work, physical therapy, spiritual counseling, volunteer services and bereavement counseling for family members. Currently, these services are available to patients in their private residence, nursing home or assisted living facility.				
<b>10. Description and Purpose of Project</b> (3000 characters maximum)				
Since its inception in 1986, Carroll Hospice has served more than 5000 terminally ill patients and their families throughout Carroll County. The program has grown significantly over the last 5 years. With this growth, a need was identified to expand the continuum of hospice services to include an inpatient facility in order to meet the more intensive healthcare needs of terminally ill patients. The proposed facility would provide end-of-life care for patients who are unable to remain home due to a number of factors including the lack of a caretaker, an unsafe home situation, or pain & symptom needs too great to be adequately controlled in a home environment. Presently, patients requiring inpatient hospice services must seek care outside of Carroll County. Carroll Hospice's goal is to build an inpatient facility that will open with 8 operational patient suites, roughed in space for an additional 8 patient suites, a bereavement resource center, a chapel and memorial garden and office space for Carroll Hospice and Carroll Home Care personnel. This facility will help alleviate the stress and demands placed on family members who must care for their loved ones from a distance, as well as reducing the number of patients inappropriately transferred to nursing homes due to lack of available services and will be the only one of its kind in Carroll County.				

Round all amounts to the nearest \$1,000. The totals in Items 11 (Estimated Capital Costs) and 12 (Proposed Funding Sources) must match. The proposed funding sources must not include the value of real property unless an equivalent value is shown under Estimated Capital Costs.
